SUMMARY

I am a web developer and programmer with ten years of experience working with HTML, CSS, Javascript, C++, as well as other related frameworks and languages. I have also been designing and programming games as a hobby for 7+ years, and made my first attempt at commercial game development at the end of 2011.

EXPERIENCE

Self-Employed, Freelance Developer

Pomona — 2019-2021

- Create, Plan, and Build Shopify sites
- Develop backend applications for automation purposes
- Mobile Development
- API Development

As a freelance developer, I help clients build applications/websites primarily in the e-commerce space, just finishing an engagement for an iOS/Android app built in React Native.
